**OUTCOME AFTER EVALUATION BY PSM DEPARTMENT:**

The procurement department has reviewed the rejection reasons for the suppliers/ products and found them valid and justified. The department appreciates the efforts of the evaluation committee and the PSM in conducting a fair and transparent bidding process. However, the department also suggests the following actions to address the issue of non-responsive items:

- Conduct a market survey to identify potential suppliers for the items that were not quoted by any bidder.
- Request quotations from the identified suppliers and compare them with the approved budget and specifications.

The procurement department hopes that these suggestions will help expedite the procurement process and ensure timely delivery of the required items. The department is ready to provide any assistance or guidance as needed. The technical evaluation result will be announced on website for 03 working days for the suppliers to raise their concerns if any.

PSM department has thoroughly reviewed the result of technical evaluation & approved the suggestions by the evaluation committee and accepted for further financial evaluation until there is no query raised by the supplier or the raised query has been resolved with no objection.
